

Approved For Release 2001/09/04 : CIA-RDP88-00374R000100260039-0

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Mr. Carey

DATE: 1 December 1954

FROM : VP

SUBJECT: Material brought to the Office by Colonel Miller shortly after the formal briefing of the Clark Committee

1. Attached hereto is a copy of the first and last pages of the material I told you about. There wasn't time to take notes of the rest. However, I remember that in the discussion of question No. 1 it was decided that because of so much publicity it would be necessary to go into the matter.

2. The title carried on the first page was "Questions to be taken up by the Clark Task Force".

1. To what extent should the Task Force devote its efforts to the question of communist or subversive infiltration, or of other internal security measures of the intelligence agencies surveyed?

2. To what extent should we survey the domestic and overseas field offices of the various intelligence agencies?

3. To what extent should we inquire into the activities of the National Security Agency and into the communications intelligence activities of other intelligence agencies?

4. To what extent should we go into the question of counter-intelligence activities [REDACTED]

5. To what extent will Chiefs of various intelligence agencies be able to control the matters to be incorporated into our report?

6. To what extent should we survey the activities of G-2, ONI and A-2? Should we limit our survey to such agencies, or to those activities thereof which touch on those of the CIA, and involve the production of material intelligence or should we conduct a survey thereof that is comparable to what we propose to conduct of the CIA?

\*\*\*\*\*

For the purpose of this survey it is therefore alleged:

That the CIA is not performing the functions for which it was created, but it is actually devoting most of its efforts to the performance of covert functions for and in behalf of the State Department's political warfare role. [REDACTED]
